Search using "Find"

Select a company profile by search

Search options

- The minimum word length is 4 characters. Example: "CPN"
- A leading plus sign indicates that this word must be present in each row that is returned.
- A leading minus sign indicates that this word must not be present in any of the rows that are returned.
- The asterisk serves as the function (or wildcard) operator. Unlike the other operators, it should be appended to the word to be searched.
- A phrase that is enclosed within double quote (") characters matches only rows that contain the phrase literally, as it was typed. For example: "test phrase" matches "test phrase".

About us

For seven generations, the name BUTTING represents quality and flexibility in the metal-working industry. The company was founded 1777 and is one of the leading producers of stainless steel materials in Europe. It is a welded tubes and is the only pipe mill in the world with a fully industrialised mechanically lined pipe production. The product range includes longitudinally welded stainless steel pipes and fittings (e. g. elbows, reducers, tee-piping components in stainless steel, Titanium, Nickel, Copper alloys and clad material). The company fabricates...

Products / Services

Creating cabin comfort
Working with airlines, manufacturers create the future of the aircraft cabin with great skill and resourcefulness, using new materials and innovative processes: not too warm and not too cold.

We offer innovative solutions and services for all-round development, engineering, production, installation, servicing and product support for the aviation industry. The division benefits from the strong backing of the group and our decades of experience in the core fields of heat and acoustical insulation, noise and fire protection.

In collaboration with our customers and partners, we confront the complex challenges of the aviation business and bring bold new solutions to the table – as a competent interiors partner for civil, cargo and military aircraft.

Scope

- Heat insulation
- Cold insulation
